

Singularly beautiful and historic, Cambridge is the perfect location for an inspirational summer programme.

You can choose Science, for which Cambridge is world famous, or Academic English. Or you can select English Literature for more advanced study.

Churchill College, where the programme is based, is one of the thirty-one colleges which make up Cambridge University. The College has a strong focus on science, engineering and technology. Twenty-eight of its members have won Nobel Prizes.

You are taught by highly qualified professional senior school teachers.

You are looked after with the greatest care by specially selected Mentors, all students of Oxford and Cambridge Universities.

You will be taught new skills, new ways of learning and crucially how to think critically and effectively. This will provide invaluable help for your future studies and entry to the best universities.
